Product Data Sheet 4 Cu. Ft. Undercounter Hazardous Location Freestanding Freezer

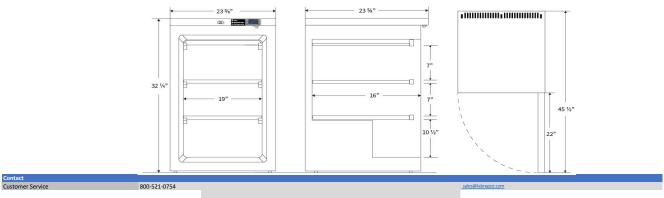

In the fast-paced world of scientific and industrial laboratories, precision and safety are key. Our Hazardous Location Undercounter Freezers are engineered for use in environments where volatile or explosive conditions could exist. Crafted with ATEX and non-sparing components, these freezers are designed to keep you and your substances safe. These units meet NFPA and OSH2 guidelines for Hazardous Location, Class 1, Division II, Groups A,B,& B guidelines. Engineered with a microprocessor temperature controller, these units provide exceptional precision, recovery, and maintenance. You'll also experience the power of natural hydrocarbon refigerants through energy savings and a greener laboratory footprint—all while enjoying stellar system performance. *

Product Description

*Note: Please be aware that these units coupying actual spacin performance: *Note: Please be aware that these units come without a plug and require hardwiring in conduit, ensuring a secure connection in your high-risk environment. Und restanding models also require 4 inches of clearance for proper ventilation and safety.

neral Description and Application					
Storage capacity (cu. ft)	4 Cu. Ft.				
Door	One swing solid door				
Shelves	2 fixed shelves				
Freezer Compartments	1				
Baskets	3 Removable				
Mounting	Leveling legs				
Interior lighting	Non-applicable				
Airflow management	Non-applicable				
External probe access	Non-applicable				
Insulation	Cabinet is foamed-in-place with EPA compliant high density urethane foam				
Exterior materials	White powder coated steel				
Access Control	Keyed door lock				
General warranty	Two (2) years parts and labor warranty				
Product Weight (lbs)	91				
Shipping Weight (Ibs)	118				
Rated Amperage	1.4 Amps				
Power Plug/Power Cord	Exposed flying leads, 3 wires				
Facility Electrical Requirement	115VAC/60Hz/1PH				
Agency Listing and Certification ETL Listed, Units meet NFPA and OSHA guidelines for Hazardous Location, Class 1, Division II, Groups A, B, C & D guidelines.					
frigeration System					
Refrigerant	R600a				
	R600a Manual				
Refrigerant Defrost	Manual				
Refrigerant	Manual				
Refrigerant Defrost ntroller, Configuration, Alarms and Monitori Controller technology	Manual ing Microprocessor Temperature Controller				
Refrigerant Defrost ntroller, Configuration, Alarms and Monitori	Manual ing				
Refrigerant Defrost ntroller, Configuration, Alarms and Monitori Controller technology	Manual ing Microprocessor Temperature Controller				
Refrigerant Defrost ntroller, Configuration, Alarms and Monitori Controller technology	Manual ing Microprocessor Temperature Controller				
Refrigerant Defrost ntroller, Configuration, Alarms and Monitori Controller technology Display technology	Manual Microprocessor Temperature Controller Digital temperature display				
Refrigerant Defrost troller, Configuration, Alarms and Monitori Controller technology Display technology Adjustable Temperature Range (Freezer)	Manual Maroprocessor Temperature Controller Digital temperature display -15°C to -25°C				
Refrigerant Defrost troller, Configuration, Alarms and Monitori Controller technology Display technology Adjustable Temperature Range (Freezer) External alarm connection	Manual Microprocessor Temperature Controller Digital temperature display				
Refrigerant Defrost Introller, Configuration, Alarms and Monitori Controller technology Display technology Adjustable Temperature Range (Freezer) External alarm connection Alarms	Manual Ing Microprocessor Temperature Controller Digital temperature display - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - - -<				
Refrigerant Defrost troller, configuration, Alarms and Monitori Controller technology Display technology Adjustable Temperature Range (Freezer) External alarm connection Alarms Simulator Ballast	Manual ing Microprocessor Temperature Controller Digital temperature display - 15°C to -25°C Remote alarm contacts Audible and visual high and low temperature alarms Glass beads in a bottle				
Refrigerant Defrost Introller, Configuration, Alarms and Monitori Controller technology Display technology Adjustable Temperature Range (Freezer) External alarm connection Alarms Simulator Ballast Digital Communication	Manual Microprocessor Temperature Controller Digital temperature display 15/° C to -25°C Remote alarm contacts Audible and visual high and low temperature alarms Glass beads in a bottle Non-applicable				
Refrigerant Defrost htroller, Configuration, Alarms and Monitori Controller technology Display technology Adjustable Temperature Range (Freezer) External alarm connection Alarms Simulator Ballast Digital Communication Data Transfer	Manual Ing Microprocessor Temperature Controller Digital temperature display Inglast temperature display				
Refrigerant Defrost htroller, Configuration, Alarms and Monitori Controller technology Display technology Adjustable Temperature Range (Freezer) External alarm connection Alarms Simulator Ballast Digital Communication Data Transfer	Manual Ing Microprocessor Temperature Controller Digital temperature display Inglast temperature display				

Dimensions								
	Width (in.)	Depth (in.)	Height (in.)	Door Swing (in.)	Total open Depth (in.)			
Exterior	23 5/8"	23 5/8"	32 1/4"	22"	45 1/2"			
Interior	19"	16"	24 1/2"
